COURSE CONTENT

UNIT 1	UNIT 2	UNIT 3	UNIT 4
It's time we speak up and save those who cannot save themselves. Explore the dark side of the illegal wildlife trade and animal poaching. Get ready to accept your role as a member of the World Wild Fund (WWF) and your imaginary 5 million dollar donation. You will plead your case to make the greatest difference.	Prepare to become real Geographers in the field as we tackle the Mt. Coolum Summit and Mary Cairncross Scenic Reserve. Explore the real life challenges these areas face and propose your own plan to protect these amazing local wonders.	It's time to see the world through a different lens. Child marriages, witch burning and slave labour. That is the everyday reality for some children in the world. Get ready to stand up, fight against human rights breaches, and understand exactly why Australia is known as the "lucky country".	Are you ready for a trip of a lifetime? Create your own personal bucket list as we explore some of the worlds most beautiful and unique tourist hotspots. Spoiler: not everything is what it seems. Are some places being destroyed? Are we loving parts of our world – to death? Let us explore the good, the bad and the ugly sides of tourism.
