COURSE CONTENT

| UNIT 1 | ASSESSMENT |
|--|---|
| Going Live in Five: This module develops students' skills in the performance and sound production of live music. Students will also develop skills in evaluating processes and procedures with concert production. Working in groups, students plan, implement and evaluate stage management for a school's performance event. | Product (Composition)- Arranging and Creating Performance |
| UNIT 2 | ASSESSMENT |
| Who Am I? This module explores the role of music in developing our sense of identity and the role music plays in our community. Students will look at the varying functions and purposes of music and how it enriches people's lives. | Investigation Project |
| UNIT 3 | ASSESSMENT |
| Music in the Now: This module will develop students' compositional and performance skills. They will delve into the world of music technology and the arrangement of contemporary music. Working in groups students plan, implement, analyse and evaluate stage management for a school performance event. The performance event will focus on an exploration of our school community and our values. | Project - performance and written Product (Composition) |
| UNIT 4 | ASSESSMENT |
| Hitting the Screen: This module explores the world of music on the screen. They will look at the role of music in movies, television and video games. Students will be given the opportunity to develop the knowledge, understanding and skills necessary for writing music for film, television and/or video games. | Product (Composition) Performance |

CAREER PATHWAYS
