Snapshot report

Under the agreement for 2014
Caboolture State High School received $128,412

Our full 2014 agreement can be found here:

After reviewing our Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Our strategies this year have been:

1. Embedding literacy and numeracy skills across the curriculum
2. Incorporating literacy and numeracy lesson start up drills in all year 8 and 9 classes
3. Skillling all members of staff in mapping the literacy and numeracy ability of students to ensure teachers differentiate curriculum to maximize student learning.

Strategies implemented include:

• Employed a literacy coach on a half timetable to work with teachers and students to improve the literacy standard of students in years 8 and 9
• Employed a numeracy coach on a half timetable to work with teachers and students to improve the numeracy standard of students in years 8 and 9
• Employed a coach to work with teachers and students to increase the number of students in the upper two bands for literacy and numeracy
• English and Mathematics National curriculum in years 8 and 9 has been unpacked to identify key literacy and numeracy skills and these skills are being explicitly taught to all students
• Literacy and numeracy lesson start up drills are being used in all lessons in years 8 and 9
• Resources have been purchased to support teachers and students in implementing the curriculum
• Teachers and teacher aides have accessed professional development to ensure they have the capacity to work with all students to improve literacy and numeracy skills
• Developed a data collection and analysis process to inform teaching practice and ensure the delivery of differentiated teaching to ensure the learning needs of all students are met.
