**SUGGESTED PLANT PALETTE**

**TREES**
- Ficus macrocarpa 'Hillii'
- Melicope elleryana
- Syzygium jambos
- Syzygium tierneyanum

**GROUNDCOVERS**
- Grevillea curviflora
- Hardenbergia violacea

**SHRUBS/CLUMPING**
- Agapanthus orientalis
- Hymenocallis littoralis
- Liriope muscari 'Isabella'
- Lomandra hystrix 'Katie Belles'

**HEDGING**
- Callistemon salignus 'Great Balls Of Fire'
- Murraya paniculata
- Syzygium australe 'Hinterland Gold'

**LANDSCAPE INTENT**

The landscape plantings proposed for this site are intended to reflect an Australian school campus which increases the value and character of the buildings and the site in relation to its surroundings. A range of plants have been selected to complement each other whilst providing the necessary shade and visual barriers from inside and outside the property. The species have been considered for their durability, sustainability, environmental resilience and visual appeal. The suggested planting palette has been compiled with the aim of matching species together that appear harmonious and natural in the environment and will withstand the school grounds over time.
