

CABOOLTURE

STATE HIGH SCHOOL

Making the difference today ... for tomorrow

YEAR 8

GEOGRAPHY

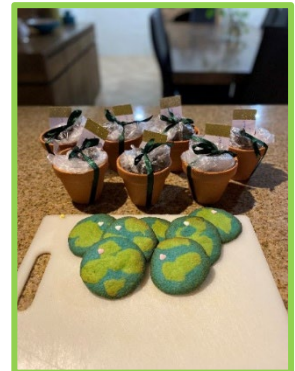

DURATION OF SUBJECT	ONE SEMESTER
FINANCIAL COMMITMENT	REFER TO FEE SCHEDULE

COURSE CONTENT

UNIT 1	ASSESSMENT
<p>Risky Business – Responding to Geomorphic Hazards</p> <p>Are you intrigued by natural disasters, do wild events such as; earthquakes, tsunamis or volcanoes interest you? Explore the work of geomorphic hazards and understand the incredible natural processes that occur beneath our very feet for these incredible destructive events to transpire.</p> <p>You will tasked with developing a case study response to some of the most destructive and exciting geomorphic hazards that have ever occurred across recorded history. How did the destruction occur, what was the impact on people’s lives and homes? What can we possibly do to try and mitigate the risk of these natural processes?</p>	<p>Inquiry Task – Information poster/brochure/PowerPoint</p>

UNIT 2	ASSESSMENT
<p>Mega Cities: Mega Problems (Zombies Edition)</p> <p>Do you love the hustle and bustle of megacities like Tokyo, New York or Shanghai? Investigate the marvels of human engineering such as bullet trains, skyscrapers and suspension bridges. Contrast this with some of the world’s most disadvantaged cities and ask yourself, what do humans truly need in order to survive?</p> <p>Then, you will be challenged to imagine what humanity would do if we had a Zombie outbreak, right in our own backyard. If we no longer had access to those sprawling cities closest to us, what would we do? How would we survive?</p>	<p>Portfolio – Creating Settlements</p>
